

# Flow-Based Intraoperative Coronary Graft Patency Assessment

**Transonic Systems Inc.**  
The Flow Measurement Specialists

This handbook presents flow-based intraoperative  
graft patency assessment  
with transit-time ultrasound flowmetry.

We gratefully acknowledge the invaluable collaboration  
of Dr. Bruce Mindich, chief of cardiac surgery at  
The Valley Hospital, Ridgewood, NJ. His expertise with  
routine intraoperative flow measurement and data  
interpretation, as well as his gracious information  
sharing have made this handbook possible.
